EDUCATION

Vietnam National University HCMC – An Giang University
Bachelor's Degree in Information Technology

An Giang, Vietnam
Oct 2020 - Jun 2026

SKILLS SUMMARY

Programming: JavaScript/TypeScript, React, Next.js

Technologies: Node.js (Express), MongoDB, MySQL, Docker, Firebase, Vercel

WORK EXPERIENCE

KIM QUANG BAKERY

Tan Chau Town

E-commerce & Web Developer / [Link](#)

2024 – Present

Family-owned traditional bakery established 2014 / managing full digital operations

Website & Automation: Built a full e-commerce site with Telegram bot integration for instant order notifications; achieved 99% Lighthouse performance score.

SEO & Visibility: Optimized Google Business Profile to ~200 monthly visits and grew Facebook fanpage to 2,000+ followers organically.

MOBIFONE

Long Xuyen City

Software Engineering Intern

Mar 2025 – Jun 2025

Automation Tool: Built an Excel-based data extraction tool that reduced business directory processing time from ~8 hours (4–5 staff) to under 2 hours (1 person) — a 75% efficiency gain.

Enterprise Support: Provided Level 1 technical support resolving hardware, software, and network issues to maintain system uptime.

Infrastructure: Assisted in monitoring enterprise servers, network infrastructure, and ITSM workflows.

Field Operations: Participated in B2B sales campaigns (SIM cards, Loa Thần Tài devices) targeting SMEs, schools, and cooperative districts across the province.

PROJECTS

MUSLIM VIETNAM

Fullstack & AI Developer / [Live Demo](#)

Nov 2024 – Present

PWA Architecture: Built an offline-capable Progressive Web App (PWA) with Lighthouse score 90+, installable on iOS/Android without app store.

Mira AI: Integrated Gemini-powered AI assistant enabling multi-turn, context-aware religious Q&A in Vietnamese.

Utility Suite: Delivered 14+ production-ready features (Qiblah Finder, Prayer Times, Hijri Calendar, Zakat Calculator) within a single release cycle.

Performance: Achieved sub-2s load time on 3G networks through SSR and Web Vitals optimization.

HOOKDREAMS

Social Media Platform / [Live Demo](#)

Jan 2025 - Jan 2026

Auth & Security: Implemented JWT authentication with Google OAuth, protected routes, and secure session management.

Real-time Engine: Built sub-100ms messaging and live notifications via Socket.io with event-driven architecture.

RESTful API Design: Architected scalable APIs covering posts, stories, likes, follows, and media uploads (Cloudinary).

Backend & DB: Applied controller-service pattern with optimized MongoDB schemas and indexing for efficient querying.

LICENSES & CERTIFICATIONS

Gemini Certified University Student / Google / [Link](#)

Dec 2025

VSTEP English Certificate (B1 – CEFR) / Dong Thap / [Link](#)

Apr 2026
